

# National Turbo-machinery & Propulsion Incorporated Advanced Projects Portfolio

Design Engineering

Turbo-machinery & Propulsion

Research & Development Projects

Electro-mechanical & Fluid Control Systems

Advanced Technology Materials & Manufacturing

Technology, Design, Engine & Production Licensing

Prime Contract & Co-development Projects

Strategic Investments & Acquisitions

Strategic Enterprise Infrastructure

Advanced & Classified Projects

Development & Acquisition

NTPI Engines

Fuel Systems

- *aerospace*
- *marine*
- *automotive*
- *energy*
- *special projects*

The mass x velocity continuum enables plenty of challenge for project management, infrastructure for engineering, production, foundry, machinery, assembly and applied and experimental research and development.

The programs, projects and technologies are awesome and exciting.  
A long term visionary strategy in the very dynamic transportation industry.

*Light up the after-burners of your imagination!*

*Get equipped with the National Turbo-machinery & Propulsion - Advanced Projects Portfolio.*

*You can also acquire the CVIx Advanced Projects Portfolio from [Capital Vault Incorporated](#),  
to add speed, power and stealth to the National Dream Reloaded!*

- general & strategic options - intel package ; MAX RSVP and more
- business options, personnel, custom made, investment, development & acquisition
